

## TOPIC LIST for Overall Test 2

### Geometry

Bearings and map scales  
Transformations  
Angles  
Area and perimeter

### Data Handling

Comparing data sets

### Number

Fractions  
Best value problems

### Algebra

Converting a recurring decimal to a fraction

**Note** - your ability to perform all four operations (+ -  $\times$   $\div$ ) and use powers with all types of number (negative, integer, decimal and fractions) as well as applying them to algebraic terms, is fundamental to all mathematics.
